

WATERDAM CHURCH APP

thru CHURCH CENTER APP

Do you know that Waterdam has an App?

What is the App? A place to find all things Waterdam. You can access the Waterdam Church website, Sunday's sermon, request Pastor Jack's sermon notes, submit a prayer request, read a daily devotional, and let us know how we can connect with you.

What isn't the App? The app is not to replace the relationships that we have with each other or to change how you currently interact and communicate with the church. We want you to call us and stop by anytime. That will always be the foundation of our church family. We are offering the app to provide an easy way for you to find information and stay connected.

How do I get the App? Download the App by going to your App Center and search for **Church Center App**. During the download process you will be asked a few questions, including your zip code. Choose Waterdam Church as your home church and you will get access to everything you need.
