

WATERDAM MEDICAL TEAM

The Waterdam Medical Team is looking for volunteers willing to be trained and certified for service in basic CPR, AED, and First Aid. With our ability to return to worshipping together and new programs being planned for the future, it is our desire to provide the most basic of care to attendees should an emergency occur at the church.

Medical Team members will still be able to participate in Church Services and Sunday School classes and will only be actively involved should an emergency occur during the time they have signed up to serve.

It is our desire to build a team with sufficient members to request only a twice a month sign up for events in which the Medical Team may be needed.

Please consider joining this important service and assisting with emergency care when needed. Classes will be offered in the near future to prepare you for this service.

A sign up sheet is available in the Welcome Center Desk area or you may contact Cindy Cowie at cjconsulting.llc@outlook.com.

*Thank you in advance for your wiliness to serve God
and our Church Family.*
